

### Room Occupancy Rates

The average room occupancy rate across all accommodation types for the month of February, 2007 was 68%; this was 9% greater than the previous month. The rate for hotels was 67%, an increase of 9% from January, while for guesthouses the rate was 76%, a 4% rise from January 2007.

### Net Room Occupancy Rates

Approximately 5% of room nights available from the target population were lost during the period, due to rooms being not in service. Adjusting for these rooms, the net room occupancy rate for Trinidad was 71%, roughly the same as the previous month. For hotels the net occupancy rate was 71%, the same as January, and for guesthouses it was 73%, a 1% decline when compared to the previous month.

### Occupancy Rates by Location

The room occupancy rate for hotels and guesthouses in Port of Spain and environs was 69%. Taking into consideration rooms not in service, the net occupancy rate was 73% in the Port of Spain area. Outside of Port of Spain, the room occupancy rate was 63% and net room occupancy rate was also 66%.

### Room Rate by Type of Accommodation

The average room rate among respondents for February was approximately US\$198 for hotels and US\$83 for guesthouses.

### Guests by Country of Residence

The vast majority of foreign guests, 41%, were from the United States of America. This was followed by the Canada with 9% and UK with 8%. 14% of guests were from Trinidad and Tobago.

### Room Occupancy Rates – February 2007

### Average Room Rate - Feb 2007

	US\$
<b>US\$</b>	
Hotels	197.88
Guesthouses	83.05

**Number of Guests by Country of Residence**

**Notes:**

Target population is commercial tourist accommodation in Trinidad, comprising members of the Trinidad Hotels, Restaurant and Tourism Association together with hotels/guesthouses registered with TDC (where different). Together these comprise approximately 1,800 rooms.

Occupancy calculated as:

$$\frac{\text{Room nights sold}}{\text{Room nights available}} \times 100$$

Net Occupancy calculated as:

$$\frac{\text{Room nights sold}}{(\text{Room nights available} - \text{room nights not in service})} \times 100$$

Average room rates for respective accommodation types:

$$\frac{\text{Total room revenue}}{\text{Room nights sold}}$$
